WESTDENE PARK CONSERVANCY

Fencing commences on Monday 5 May as we look to begin an exciting project in Westdene/Dan Pienaar. The establishment of this conservancy has been met with overwhelming support from the Westdene and Dan Pienaar communities. Thank you to all those who have already made a contribution towards the conservancy. Since inception of the concept, just over six months ago, we have managed to raise over R200,000.00 for the fence required to enclose the west side of Albrecht Street. This immediately creates a total area of almost 10 hectares. The concept is to create a conservancy for the protection of the fauna and flora and make this area accessible for members to safely visit and enjoy the natural beauty. Further funding will be required for the establishment of walking trails, the rehabilitation of the area as a result of years of dumping and illegal squatting, as well as determining the species of fauna and flora present. Exciting times lie ahead with much work to be done. If you have expertise in any of these fields, or are a willing volunteer, please reach out and contact Michael to discuss what you can offer. Continue to encourage your friends and neighbours to make a contribution. Together we are creating something amazing.

Relating to security issues, please make use of the WNA Crime Group  on WhatsApp. Our security partners ProForce, Bloemsec, Fidelity ADT & Senforce monitor this group directly from their Control Rooms and this is the quickest way to obtain assistance. Let's all be the eyes of the suburb and report anything suspicious. We are trying to resuscitate the Community Police Forum for Sector 2 (Westdene, Brandwag & Willows) and would welcome anybody willing to assist with patrols in conjunction with SAPS, Metro Police and our security partners. Contact me if you would like to get involved in keeping Westdene safer.
